WORK EXPERIENCE

Wealthbuy Finserve Pvt. | Application Developer Intern   *June 2024 - July 2024*
- Developed an app from scratch to provide consumers with real-time insights into their mutual fund portfolio value.
- Designed and built a responsive user interface, ensuring seamless navigation and consistency across Android and iOS devices.
- Integrated Firebase Authentication to provide secure login, enhancing user data protection and simplifying the onboarding process.

POSITION OF RESPONSIBILITIES

Student Mentor & Core Member | TIED-CELL   *July 2024 - Present*
- TIED-CELL is the incubation and entrepreneurship development cell for JUIT.
- As a student mentor I guided junior members, helping them adapt to their new roles and teams.
- Collaborated with the operations, finance, marketing, and design teams to organize impactful events like Biz Quiz, Breakout, Ignite and conduct campaigns like same-same but different.
- Acted as part of the primary decision-makers for club activities and served as one of the main contact points between the club and the faculty in charge.

Team Head @ Finance Team | TIED-CELL   *June 2023 - June 2024*
- Collaborated with a startup to gather and analyze their financial requirements, ensuring a clear understanding of their needs and suggested solutions.
- Prepared detailed budget approvals from college administration and maintained a thorough financial check for all expenditures in events for reimbursement processes.
- Delivered comprehensive post-event reports for the Himachal Pradesh Government, showcasing TIED-CELL activities to secure continued funding.

Member | Rotaract Club of Waknaghat   *October 2022 - June 2023*
- Rotaract is a worldwide community service organisation of young people.
- Conducted awareness programs for children, introducing them to C programming.
- Visited The Waknaghat School, leading events focused on sanitation pad awareness and distributing essential stationery supplies to students.

PROJECTS

Expense Tracker | Flutter   Github
- Enables users to record daily expenses, providing a clear overview of their financial activities.
- Allows users to categorize entries as income or expense for easy tracking and organization.
- Offers the option to add personalized notes to each entry for detailed descriptions and context.

SortingAlgoVisualizer | C++   GitHub
- Developed an application to visualize sorting algorithms using the SDL2 library.
- Implemented Selection Sort, Insertion Sort, Bubble Sort, Merge Sort, and Quick Sort algorithms.
- Enhanced user interaction by selection of sorting algorithms through keyboard inputs.

SKILLS

Languages:	C++, Dart, SQL
Development:	HTML, CSS, Flutter, Firebase, MySQL
Others:	Git, GitHub, Rest APIs
